

ICAR-CENTRAL INSTITUTE
OF POST-HARVEST
ENGINEERING AND
TECHNOLOGY, LUDHIANA

Image Processing for Analysis of Agri-Food Commodities using MATLAB

Online Training Programme

PROGRAMME DURATION

08-01-2024 To 14-01-2024

📍 Venue: Online @ ICAR-CIPHET

TRAINING HIGHLIGHTS

Learn how to process and analyze images of agri-food commodities

Understand techniques for enhancing image quality and preparing images for analysis

Explore real-world applications in agriculture and food industry, including quality control, grading, and detection

Certificate, Learning material & Assignments will be provided

WHO CAN APPLY

This MATLAB training is designed for individuals with basic computer knowledge, making it accessible to a wide range of learners, including students/ researchers, engineers/ scientists.

COURSE FEE

For Professionals/ Employee	--Rs. 5000/-
For Students/ Researchers	--Rs. 2500/-
